PROFILE

Technical Support Specialist with a Higher National Diploma in Software Development and experience at Webflow and Qualtrics. Skilled in technical troubleshooting, issue resolution, and helping users navigate software systems. Fluent in six languages with professional German, combining a solid technical foundation with strong international communication skills.

EXPERIENCE

TECHNICAL SUPPORT SPECIALIST @ WEBFLOW

September 2025 - present

Provide technical support and troubleshooting for Webflow users, resolving issues with custom domain DNS setups, SSL certificates, and site performance. Assist customers with site building and design logic using HTML, CSS, and Webflow's layout engine. Support complex CMS configurations, including collection structures and dynamic data bindings, ensuring sites function properly and render across all devices. Create internal AI Claude tools to streamline day-to-day work across our global support team.

PRODUCT SPECIALIST @ QUALTRICS

November 2024 – September 2025

Provided support via email, chat and phone for English, German, French, Spanish and Italian-speaking customers. Technical aspects included assisting clients with API issues, using Postman to troubleshoot API issues, integrating 3rd-party platforms to our platform, and assisting clients with SSO authentication issues. Furthermore, I aided clients with their custom themes, helping them with the required HTML and CSS code to make their desired themes work on our platform. I also created a video guide to teach users how to create responsive video questions across many devices, available here: [How to Create Video Questions for Any Device](#).

FACULTY ADMINISTRATOR @ PULSE COLLEGE

July 2024 – November 2024

Oversaw faculty administration and office management for the Animation & Video Games department. Managed student registration, lab scheduling, academic records, exam board logistics, staff support, and event coordination.

SENIOR REFERENCE DATA ASSOCIATE @ INTERCONTINENTAL EXCHANGE (ICE)

May 2023 – July 2024 (FTC)

Responsible for LATAM fixed-income reference data coverage, processing complex financial reports and legal documentation in Spanish, English, and Portuguese. Maintained real-time market data feeds, resolved client-reported data discrepancies, and liaised with Latin American stock exchanges to ensure data quality. Supervised and trained offshore staff, built process documentation and continuity plans, and collaborated with cross-functional teams to identify operational risks and refine internal procedures.

CLAIMS HANDLER @ ALLIANZ PARTNERS

February 2023 – May 2023

Managed end-to-end French-language claims, driving cost-effective file resolutions. Monitored claim data to detect potential fraud indicators, escalated suspicious activity, and collaborated across international teams.

PLATFORM EXPERIENCE NEW ASSOCIATE (GERMAN) @ ACCENTURE

March 2022 – February 2023 (FTC)

Managed trust and safety operations for a corporate web video platform with a specialization in the DACH region and German market. Reviewed user-generated images, video, text, and audio to enforce community guidelines, remove policy-violating content, and respond to user reports. Investigated suspicious account activity, fraud, and illicit behavior to reduce platform risk. Consulted internal policies to refine safety standards, collaborated with quality and training teams, and supported cross-language peers on trust and safety best practices.
